## FRESH AIR HOSE BREATHING APPARATUS

WITH MANUAL CUM ELECTRICAL OPERATED  
BLOWER (FAHA - M/E)

The JLD FRESH AIR HOSE APPARATUS consists of an ISI marked PROTECT 2000 Full Face Mask connected to a corrugated tube ending in a manifold mounted on a harness belt worn around the waist. The manifold is connected to a 15 meters long 20mm I.D. canvas covered wire-embedded rubber hose. The other end of the hose is connected to the electrical / hand operated blower.

The electrical / hand operated radial blower is a portable unit mounted on a steel frame and housed in a sturdy steel carrying box. It is capable of providing fresh air to 2 persons simultaneously at a minimum flow of 50 LPM. The single phase Flame proof motor conforms to groups 2A

and 2B. In case of power failure, the blower can be used instantaneously in the manual mode, thus causing no discomfort to the wearer.

A Nylon or Manila signaling rope can be spliced on to the belt for signaling between the wearer and operator of the blower. Also available is a wire-embedded hemp-covered life line which can be used in the event of the wearer falling into a confined space and having to be hauled out.

**Option:** Also available two hose lengths of 15m / 18m joined by a coupling to be used only in horizontal position work situation.

## Ordering information

1	Fresh Air Hose Apparatus with Manually / Electrically Operated Blower for single user	Fresh Air Hose Apparatus with Manually /Electrically Operated Blower for single user Comprising of following: <b>1.</b> Portable Unit, mounted on wheels <b>2.</b> Blower: Both manually as well as electrically operated to ensure fresh air supply of 50 to 60 litres/min at each face mask <b>3.</b> Motor: Flame proof, conforming to Class-I, Div. II: Gas Group II, iiB; Operating Voltage: 220/230 V, Single Phase <b>4.</b> Tapping Points: 2 nos. <b>5.</b> i) Hose: 20MM ID x 30m canvas covered wire embedded rubber hose with coupling (2 nos.15m hoses connected with coupling) ii) Life Line: One length of 32m Nylon lifeline for transmitting signals iii) Protect 2000 Face Mask: 1 No. (ISI Marked) with double sealing frame, speech diaphragm, self-demisting inner mask with corrugated tube connected to manifold mounted on a harness belt at the waist	D-4017
